Musical Trivia

To start the Musical Minds game, you cut the questions. It is recommended to print them on cardboards. Then put them in a box.

Note. - The player who celebrates her or his birthday the first starts the game.

A score-keeper (the player in charge of the scorecard) and a time-keeper (the player in charge of the time) are chosen. The card-reader takes a card from the box, reads the clue out loud. As soon as the correct answer is called within the time limit (around 1 minute), the score-keeper adds 10 points. The opposite player(s) guess (es) the song to win 10 points.

Note. - The first player who says the answer out loud must be sure to have the correct answer. An incorrect answer means the loss of 5 points.

Note. - The cards (questions) are always read by the player or team to the right of the person who guesses.

Example:

Singing *na, na, na...*

Sing this song while snapping your fingers :

Film

Pink Panther

Note. - The reader draws or sings (na, na, na...) for the opponent(s).

Example:

Sing two songs using the word :

Love

The opposite player(s) sing(s) to win 10 points: Love me tender love me sweet... Love is in the air....

Note. - The Player or team with the highest score wins the Musical Minds game : 100 points
